Eva Longoria is Addicted to Oxygen Facials

Eva Longoria tells InStyle Magazine that's she addicted to Oxygen treatment facials, "I have a machine at home. Oxygen treatments use pure Oxygen delivered right to your skin for a more youthful appearance. The pure Oxygen revives and replenishes skin that has been affected by pollution and free radicals.

Other celebs like Jennifer Lopez and Madonna also indulge in this pricey spa treatment, \$500 and up. While Eva probably dropped thousands on a professional at home machine.
